

Paving & Walling Guide

Tobermore

Hard landscaping. **Made easy.**

Sienna Graphite
Sienna Setts Silver

Foreword

When my grandmother saved during the turbulent years of the Second World War, she did so with a simple vision. She wanted her son to build a business rooted in hard work, integrity and service to the local community.

Returning from the frontlines, my father began with a humble sand and gravel business in 1942. From those early days, one principle guided everything we did. We took pride in our work and looked after our customers.

That principle still defines Tobermore today.

While our products and capabilities have evolved over the decades, our purpose remains the same. We create outdoor spaces that bring lasting value and enjoyment to the people who live with them every day.

Transforming your driveway or patio is more than a practical decision. It is about the feeling you get when you arrive home at the end of the day. It is about summer evenings with friends. It is about creating a space that feels considered, welcoming and truly yours.

For that reason, we are committed to making the process as clear and reassuring as possible. Our free Home Consultation is designed to give you confidence, clarity and expert guidance from the very beginning.

We believe creating a beautiful outdoor space should feel exciting. With the right support, it can be.

I hope this brochure inspires you and gives you the confidence to begin creating an outdoor space you will be proud of for years to come.

David Henderson
Executive Chairman & Owner

What makes a great patio & driveway?

Every great outdoor space begins with an idea.

It might be a driveway that enhances the character of your home, or a patio that becomes the backdrop to long summer evenings. However you imagine using your space, thoughtful design can transform the way it feels.

With carefully chosen materials and considered details, even the smallest changes can make a lasting difference.

Disclaimer: Designs shown are for inspiration only. While all labelled products are from the Tobermore range, colours, layouts and overall finish may vary from the illustrations.

Kerbs
Create a clean, defined edge that brings structure and balance to your driveway.

Block paving
Perfect for driveways, offering durability and dependable grip underfoot.

Facing Bricks
Coordinate your driveway with your home using beautifully crafted facing bricks.

Borders (Setts)
Add definition and subtle contrast with a carefully chosen border.

Walling
Add structure and gentle definition to garden spaces, creating depth and visual interest.

Paving slabs
Perfect for patios and pathways, available in a carefully curated range of colours and finishes.

Borders (Setts)
Introduce contrast and crisp detailing with a complementary border.

Country Stone Facing Brick
Inspired by traditional stone buildings, this range adds depth, texture and enduring character.

Find your style

The style of your outdoor space says as much about your home as its architecture.

The following pages present a selection of design styles to help you discover what feels right for your home.

Contemporary & modern

Clean lines, subtle textures and a restrained palette create a calm, contemporary look. If you're drawn to simplicity and structure, this style brings understated confidence to your home.

Sienna Silver | Page 42

Sienna Silver | Page 42

Manhattan Silver & Graphite | Page 38

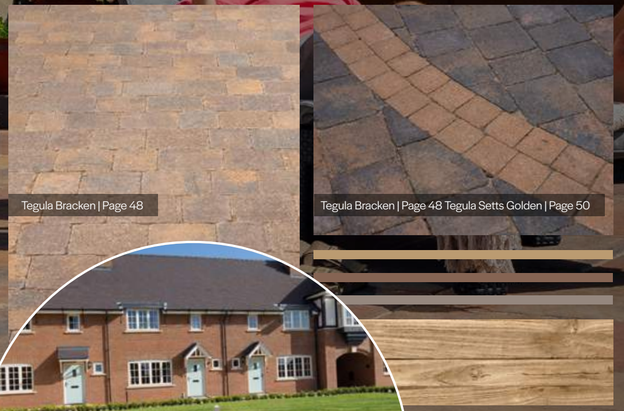

Mayfair Slabs Silver | Page 72

Traditional & classic

Inspired by heritage architecture and natural textures, this style brings timeless character and warmth to your home. Subtle detailing and classic tones create an outdoor space that feels established and enduring.

Helping homeowners since 1942.

Start with Tobermore.

For over 80 years, we have helped homeowners across the UK and Ireland create outdoor spaces that enhance the character of their homes.

While our products are known for their quality, what truly sets Tobermore apart is the support we provide to you throughout your project.

We are here to make the process straightforward and reassuring, so you can focus on enjoying your outdoor space, confident that you are supported at every stage.

A team that remains on hand should you need further advice or support. Whether you are planning a new patio or driveway, this guide is designed to simplify the journey.

How we make hard landscaping easy

Creating the perfect patio, driveway or garden space should feel exciting, not overwhelming. Our design tools help you visualise, plan and bring your ideas to life with ease. From instant augmented reality previews to bespoke CGI designs, we make it simple to explore styles, compare paving options and see exactly how your finished space could look before installation begins.

See it at your home in seconds

With **Picture It,** our augmented reality smartphone tool, you can snap a photo of your outdoor space and instantly see how your paving will look at your home – right in the palm of your hand.

pictureit with Tobermore

Our augmented reality tool, Picture It, allows you to visualise how different paving options will look at your home in seconds, using your smartphone.

Want a more detailed visual?

With our **Visualise It** service, you can send us photos of your property and receive bespoke concept visuals tailored to your space. We can also suggest complementary borders and kerbing to complete the design.

visualiseit

visualiseit premium

Bespoke CGI visualisations of your patio, driveway or garden, alongside a **tailored project planning guide** created for you.

Planning your outdoor project

The simple, stress-free approach

Not sure where to begin?
We can help with a **FREE Home Consultation**

If the thought of planning a driveway, patio, or garden feels overwhelming, you're not alone. From coordinating contractors to choosing the right products, there's a lot to consider. That's why we make it easy - helping you plan every step, so your dream outdoor space becomes a reality, without the stress.

Why book a Home Consultation?

A Home Consultation gives you expert guidance every step of the way, and it all begins on your doorstep. Our Paving & Walling Managers will help you plan your patio or driveway, provide clear product cost estimates, and connect you with trusted paving contractors that will get the job done – making hard landscaping simple and stress-free.

Book a **FREE** Home Consultation
Our expert guidance. On your doorstep.

Your project, step by step

Step 1

Book your Home Consultation

Choose a date and time that suits you during our weekday consultation hours. Your visit typically lasts around an hour.

Step 2 Confirm the details

We will contact you to confirm your appointment and discuss any initial ideas or questions you may have.

Step 3 Your home visit

Tour your outdoor space with one of our experienced Paving & Walling Managers.

We will discuss your ideas, measure the area and provide an estimated product cost for your project.

We can introduce trusted paving contractors and merchants if required.

Step 4 Your next steps

You will receive a summary email outlining your recommendations and the next steps for your project.

Step 5

Place your order

When you are ready, we liaise with your chosen contractor or merchant to ensure a smooth and seamless process.

Step 6

Aftercare & ongoing support

We provide practical guidance to help you maintain your outdoor space for years to come. Our team remains available should you have any further questions.

Dream Driveways

Your driveway is one of the first things people notice about your home. The right design enhances its character, adds value and creates a lasting impression.

Our range of block paving combines considered style with long-term performance, so you can feel confident in your choice for years to come.

Disclaimer: Colours and images shown in this brochure are for guidance only. Variations may occur due to print, screen display and natural material differences. Refer to physical samples for an accurate representation.

Managing Rainwater

In the UK and Ireland, rain is part of everyday life.

With more frequent and intense rainfall events now a reality, many homeowners conscious of environmental sustainability are opting for SuDS (sustainable drainage systems) on their projects.

Our range of Hydropave paving products are designed to manage rainfall where it falls, allowing it to drain into the permeable sub-base below. The reduced likelihood of puddling also keeps your spaces safer in icy conditions. We are proud of our Hydropave products because they are the perfect combination of form and functionality. They look just as good as our regular range and – when installed correctly – they are a superb drainage solution.

For a greener, futureproofed home, consider Hydropave.

Walling

The right walling does more than define a boundary. It adds structure, character and lasting style to your outdoor space while serving a range of practical purposes. Create raised planters to introduce colour, height and texture to your space, retaining walls to make the most of sloping gardens, entrance pillars that make a striking first impression, and garden or boundary walls that add privacy, security and definition. Whatever your vision, our versatile walling range helps you create a landscape that feels beautifully considered and complete.

Disclaimer: Colours and images shown in this brochure are for guidance only. Variations may occur due to print, screen display and natural material differences. Refer to physical samples for an accurate representation.

Kerbs & Edging

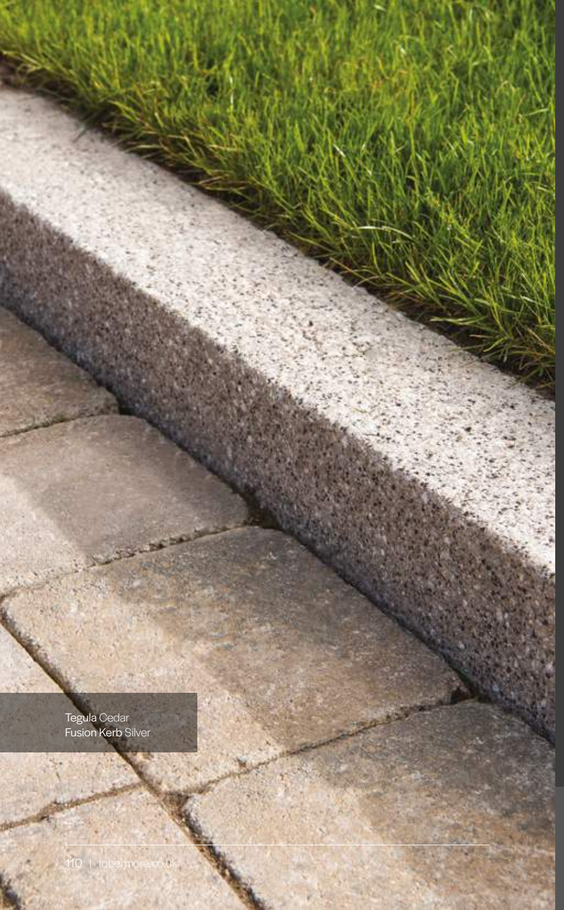

Kerbs and edging shape your design, create contrast and protect your paving from movement over time.

Choosing the right finish ensures your driveway or patio looks considered, complete and built to last. Contrasting kerbs can also add subtle definition and visual impact, helping your space feel thoughtfully designed.

Disclaimer: Colours and images shown in this brochure are for guidance only. Variations may occur due to print, screen display and natural material differences. Refer to physical samples for an accurate representation.

Steps

Your outdoor areas should look good and work beautifully too. Steps help connect different levels and create safe, practical access around your home.

Whether you are creating a welcoming entrance or managing changes in height across your property, the right steps add structure, safety and style to your design.

Our range offers solutions that complement your paving and walling, creating a cohesive and considered finish.

Care & maintenance

Looking after your paving

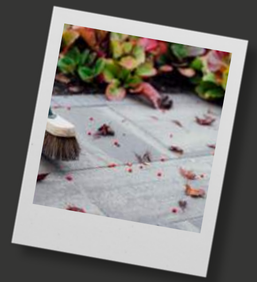

- Brush regularly to remove dirt, leaves and debris.
- Wash with warm soapy water and a stiff brush; use a light-pressure washer only when needed.
- Replace any jointing sand lost during washing.
- Sealers can help enhance colour and reduce staining. Reapplication may be required over time. **Always test a small area first.**

Weed & moss prevention

- Remove weeds early by hand and treat regrowth with a suitable weed killer.
- Prevent moss and algae by keeping surfaces clean and avoiding long-term shade and moisture buildup.
- Use approved moss/algae removers if growth appears.

Recommended maintenance frequency

- **Weekly:** Light sweeping to remove leaves and debris.
- **Seasonally (3–4 times a year):** Wash with warm soapy water; check and top up jointing sand.
- **Annually:** Inspect for stains, settlement or moss; apply sealer if desired.
- **Winter:** Rinse off any de-icing salt after ice has thawed. Avoid harsh chemicals
